Subject: another meeting for more potential exemptions

Had a call from Jerry Wilson and Richard Barrett, NRR, who are in the new FLO organization and who have been meeting with NEI on review of a series of "white papers" they are sending to the Commission as pre-application reviews for the four licensees who may come in for this new technology for which they have established FLO.

Of course, NEI does not want to pay. Are these Topical Reports? Are these pre-applications for the potential applicants? Can we bill NEI for our time. Those are the types of questions they have. I read him the Footnote and he say that does not apply.

They want to meet (after the fee rule is out). Ellen, work with Glenda to get a mutually agreeable date and then set up with NRR (also invite Brenda Davis and OGC)
