Re: Kerr-McGee Chemical LLC Technical Center License No. SUB-986
Notice of Expiration Docket Number 040-08006

Dear Mr. Whitten:

I recently received the attached letter regarding the upcoming expiration of the above reference license. As we discussed on the phone today, the Kerr-McGee Chemical LLC Technical Center (Tech Center) is in the process of terminating License No. SUB-986. In a letter dated April 5, 2001 to Mr. Charles Cain, Kerr-McGee submitted a revised decommissioning plan (D-plan) as part of its effort to terminate the Technical Center license. Since that time we have been in communication with NRC and have provided additional information as requested to finalize the D-plan. It is our understanding that virtually all issues relating the D-plan have been resolved and we anticipate approval of the D-plan within the next two or three months. Therefore, Kerr-McGee is requesting termination of License SUB-986 pending approval of the D-plan and completing activities associated with its implementation.

If you have any questions regarding this request, please feel free to call me at 404-270-2665.

Sincerely,

Russell Jones
Project Manager

License No. SUB-986
Expiration Date: 01/31/2003
Program Code: 11300

Gentlemen:

SUBJECT: NOTICE OF EXPIRATION

Your NRC license specified above will expire on the date shown. If you wish to continue your program, you must submit an application for license renewal in accordance with the enclosed instructions. Please pay particular attention to the enclosed instruction because due to major regulation changes or several major amendments to your license, you may be required to submit a complete renewal application that is complete in all respects and does not need to refer to any previous license documentation. You are also reminded that you are required to comply with the applicable provisions of the revised 10 CFR Part 20 which became effective January 1, 1994.

If your application for license renewal is filed at least 30 days before the expiration date of your license, your license will remain in effect until final action is taken on your application. However, if your application is filed less than 30 days before the expiration date and it cannot be processed before that date, you would be without a valid license when the license expires. You would have to place the material in locked storage pending a decision on your application and could not use the material until a new license is issued. Use of the material after the expiration date may subject you to enforcement action as described below.

If you do not wish to renew your license, you must dispose of or transfer all licensed radioactive material in your possession in an authorized manner (see 10 CFR 30.36), complete the enclosed Form NRC-314, "Certificate of Disposition of Materials," and return it before the expiration date of your license with a request that your license be terminated. If you cannot dispose of or transfer all licensed radioactive material in your possession before the expiration date, you must request a license renewal for storage only of the radioactive material to avoid enforcement action for violations involving possession of licensable material without a valid license. Enforcement action may include a substantial civil monetary penalty as well as daily civil penalties of \$500 per day until you achieve compliance.

This notice of your license expiration is sent for your convenience and it should not be interpreted that similar notices will be sent in the future. The responsibility for timely submission of license renewal remains with the licensee. If you have any questions regarding this notice or license expiration/renewal, please contact our Regional Office that handles your license.

DATE

This is to acknowledge the receipt of your letter/application dated 11/25/02, and to inform you that the initial processing, which includes an administrative review, has been performed.

There were no administrative omissions. Your application will be assigned to a technical reviewer. Please note that the technical review may identify additional omissions or require additional information.

Please provide to this office within 30 days of your receipt of this card:

The action you requested is normally processed in 90 days.

A copy of your action has been forwarded to our License Fee & Accounts Receivable Branch, who will contact you separately if there is a fee issue involved.

Your action has been assigned Mail Control Number 469393.
When calling to inquire about this action, please refer to this mail control number.
You may call me at 817-860-8103.

Sincerely,

Colleen Murnahan
Licensing Assistant
