Subject: Meeting to discuss time reporting for new techno. reactors

OCFO staff would like to meet with the appropriate RES staff to discuss the reporting of RES staff time spent on new technology reactor issues. The purpose of the meeting is for us to gain a better understanding of the types of work RES will be performing in this area, and for us to provide guidance on how time should be reported for these RES efforts. The OCFO attendees will be Jim Turdici, Diane Dandois, Tony Rossi, Ellen Poteat, Joel Dorfman, and myself. We are hopeful that there will also be an OGC rep in attendance who is familiar with MOUs/cooperative research issues. Please let me know who the appropriate RES attendees should be so that a mutually agreeable time can be arranged. As efforts related to Pebble Bed reactors are already underway, we would like to have the meeting as soon as possible.
