Subject: Re. Fee Billable to Exelon

Stu Rubin is the only employee that charged to Pebble Bed activities (showing on the mainframe) since 6/1/02 as follows:

Week ending	6/8/02	7.0 hours
" "	6/15/02	14.0 hours
" "	6/22/02	27.5 hours

For a total of 788.0 hours and \$118,200.00 from 3/24-6/22/02.

That includes the 12.0 hours reported by Ed for Tom King, Ed please let us know if there are any additional hours for Tom King.

Thanks, Ellen

Ellen

Exelon has requested, that I provide by the end of this week, another status report on PBMR fee billable charges. Please provide me with an update to your most recent report. The new report should include the total and the incremental charges accrued through the latest date for which you have a full accounting of staff hours.

If possible I would also like to get a separate internal breakout of who has charged how much time during this latest period.

Thanks.

Stu

I find that there are an additional 21.5 hours charged against the PBMR review thru June 1, 2002. The hourly rate is \$150. That is \$3,225.00.

However, I have learned that Thomas King is working for RES as a consultant and none of his time has been charged to Exelon to date.

I have asked Ed Okleson for help in determining how many hours Mr. King has spent on the PBMR review and those hours will have to be billed to Exelon.

Ellen

Kevin Borton of Exelon called yesterday. He asked for an updated figure from 5/18/02. When will we have the new figures from pay period ending 6/1/02?

B/53

Thanks for all your help

Peg
