Subject: Research Secy Paper on PBMR

After reviewing with Mike Case and before concurring, the Research Secy's resource paragraph needs to spell out what part will be NRR's regarding FTE and dollars for FY01 and FY02 for the work proposed. Also, is this work effort part of our present budget proposal for FY02 and redirection proposal for FY01? Another question deals with the resource process. Is any part of the reimbursable amount, either FTE or dollars, to be provided to NRR or will NRR's work efforts be fee billable only?
