

4/30/01
Exelon Plan

mtg with DES
@ DOE
- Exelon

S. Afr →

Partners

Proceed with contract 3 years

1 year of testing - end of 2005

→ incorporate test results
in US reactor

← IFF techn. proves as "viable" "proving"

~~Proceed~~ Proceed next year CY 2002?

2 applicants → next year

ESP COL - ??

1st. site → COL - up to 10 → allows incremental work

2nd sites →

build to market.

Key decision

BMFL, SAFM → all banks need DES by end of year

Exelon → do we want to proceed with license application?

Legal/Envl Topics 2:45

- Exelon will provide white paper

Anti-Trust - Legal

White Paper submitted in next 2 weeks

Detailed Anti-Trust Paper for merchant plants
in next weeks

Exelon

Decommissioning - normally "sinking fund" Proper alternatives
to provide reasonable assurance

- generally for merchant plants

King → NEI proposal? C/26

①

Small Retailer - what are we doing
next market place concepts

Need definition of "merchant plants"

Should Merchant Reserve Topics?

Seed Filing - for Adam \rightarrow multiplicity, # of readers

- Realized small merchant readers
use OGC? Can this be done by regulatory means?
- need legislative hints of Dr. Adam

~~Emergency Policy~~ -
Annual Fee, \$3000 per reader per year
\$3000 x 10 readers = \$30,000
Small merchant reader \rightarrow would be an enormous load
requiring "

eg \rightarrow will exclude paper itself

Reliability issue \rightarrow don't pay until heard.
excl \rightarrow Regulate of this issue

Need some sort of an arrangement in Time *

** - will be paid NRC a White Paper
- Need to have # in Time - "may help NRC can give
us "

operating Staffing - Regulate
~~can readers~~ \rightarrow think there will be smaller staff levels.

Uranium Fuel Cycle - essential inputs, fuel cycle,

~~fuel fabrication~~, ~~fuel fabrication~~, ~~fuel fabrication~~

of Licensees - can one lic cover multiple readers on a single site?
How long is lic term? - will submit a paper *

Exelon Strategy

- Need a clear indicator for staff
- need to know about potential rule making

Write papers within 2 weeks

Send to writing

Need reaction in June

will send in papers → react

Revise paper

written paper?

- June

* Need and don't view/exemption by end of the year

10 issue papers?

Future Meeting Plans, Schedule

Pre-apply NRC

DOE - HTSR technology

Schedule - confirm possible approach to final/regulatory
computer code

* Establish an interface with NRC → Need more time, the
products → write papers to digest

Exelon → need to put out proposal → get comments
"open meeting!"

Exelon legal/civil, key documents

NRC meeting → my thoughts on things to cover in pre-apply phase
King will go to 1/2 way into next year. In 2001

Very

SECRET paper to Gen. 1st and

01-002

Topical notes need to understand the "desig" - code - then by date

- high temp design

hester file 6/1/01 → ASAP

has read overall literature

* Need ~~code~~ on legal/RA seen. Gen. Guidance

Need info on framework by the end of this year - King - OK 12/01

King-excel select "1" connect with

DES' 18 month select. SECRET paper "1" "flexible" on the default.

Consider giving AKS an individual brief.

AKS workshop in June.

King-Discuss with the lawyers

- 1 framework
 - 2 ~~code~~ find
 - 3 legal find items
- follow up notes

King-DOE intend for the general side impact on advanced reactors
finds DOE could be on the fuel
Executive plan on RBMA →
DOE - on fuel

Dec. risk \rightarrow Key rates problem

No SAR \rightarrow Long generic

prefer to provide a more ideal
 How much risk will you provide?
 Excess - flexible amount of risk
 risk management "about" better response \rightarrow less risk for excess

unclear
