DOE has submitted a revised version of Modification 1 to our reimbursable agreement for NRC signature. The revised version incorporates the mark up copy of the Statement of Work which Brian Kildee had approved (see attached 5/24/01 email from Brian Kildee).

In the attached email dated 6/14/01, OCFO has recognized that NRC staff will need to distinguish costs chargeable to the reimbursable agreement versus costs chargeable to a potential license applicant under 10 CFR Part 170.

We would appreciate OGC involvement in the proposed meeting.
