Dear Mr. Meserve:

Please find enclosed an e-mail I recently received from Pauline Collins, a Kentucky constituent, concerning a proposed uranium site in Kentucky. I would appreciate it if you could respond to Ms. Collins, and forward me a copy of any correspondence that you send her.

Thanks for your help.

Best personal regards,

JIM BUNNING
United States Senator

Sen. Bunning,

I am concerned about the proposed siting of an uranium enrichment facility near Hartsville in Eastern Tennessee. The company, Louisiana Energy Services (LES), was unable to build their proposed facility in Homer, Louisiana because their siting was ruled as racist. Now, they seek to build it in our Appalachian Mountains. Trucks carrying deadly poisons would be transporting nuclear materials on Highway #23 which runs through my county. This facility is unnecessary, since the former Soviet Union flooded the market with enriched uranium after their demise. Please make sure that this foreign-owned company is not allowed to contaminate our mountains. Sincerely,
Pauline Collins
