Subject: graphite

Makuteswara:

You asked me who is looking at graphite in NRR. The following are the leads or contact in the various branches for this issue. The NRR branches have already provided RAI input on PBMR graphite issue to RES. They do not currently have any assignments in this area.

The reactor systems reviewers on graphite are Yuri Orechwa and Undine Shoop.

The lead contact for Materials Engineering Branch is Ted Sullivan.

The contacts for the Mechanical Engineering branch are the section chiefs David Terao and Kamal Manoly.
