Mr. Roger L. Suppes, Chief
Bureau of Radiation Protection
Ohio Department of Health
P. O. Box 118
Columbus, OH 43266-0118

Dear Mr. Suppes:

We have reviewed the final Ohio regulations in Ohio Rule 3701: 1-46, "General Licenses and Licenses for Manufacturing and Distribution," which became effective on October 20, 2002, received by this office by letter on November 13, 2002. The final regulations replaced previously referenced NRC regulations and are also in response to the one amendment identified in the enclosed State Regulation Status (SRS) Data Sheet. The regulations were reviewed by comparison to the equivalent NRC regulations in 10 CFR Parts 31 and 32. In addition, we reviewed our December 11, 2001 letter to you that addressed the proposed regulations and your January 10, 2002 response to us. We discussed our review of the final regulations with Mike Snee on December 6, 2002.

As we stated in our March 12, 2002 letter to you, we understand that you modified the regulations to reflect that Ohio regulates the exempt distribution of only non-AEA material in the State. You added Rule 46-13(C) which emphasizes that the transfer of byproduct material to persons exempt from licensing must be done in accordance with an NRC license.

As a result of the NRC review, we have determined that the Ohio regulations, as adopted, meet the compatibility and health and safety categories established in Office of State and Tribal Programs (STP) Procedure SA-200.

The SRS Data Sheet summarizes our knowledge of other Ohio regulations. Please let us know if you note any inaccuracies or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the STP Web Site: <http://www.hsr.d.ornl.gov/nrc/rulemaking.htm>.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me or Jim Lynch at (630) 829-9661 or JLL2@NRC.GOV.

Sincerely,
IRA BY JOSEPHINE M. PICCONE
