2. the responsive information currently available;
3. the responsive information identified but currently unavailable;
and
4. when intervenors anticipate receiving such information currently
unavailable.

Each of the following requests requires supplementation in accordance with 10 C.F.R. §§ 2.740(e)(1) – (2). PG&E therefore requests that, in the event Intervenors obtain or

discover any additional information that is responsive to any discovery request, Intervenor promptly supplement their responses to these requests.

C. Objections

In the event that Intervenor objects to any interrogatory or document production request under claim of privilege, immunity, or for any other reason, please indicate the basis for asserting the objection, the person on whose behalf the objection is asserted, and describe the factual basis for asserting the objection in sufficient detail so as to permit PG&E to consider, and the Licensing Board to adjudicate, the validity of such objection.

II. INTERROGATORIES

Interrogatory 1

Identify each person who supplied information for responding to these interrogatories and requests for the production of documents. Specifically note the interrogatories for which each such person supplied information.

Interrogatory 2

Identify each person whom Intervenors expect to provide sworn affidavits or declarations in connection with the written filing for this Subpart K proceeding, and each person who would testify in any subsequent evidentiary hearing. For each person identified, describe that person's professional affiliation, address, area of professional expertise, qualifications, and educational and scientific experience. Also, describe the general subject matter on which each such identified person is expected to provide sworn affidavits or testimony in this proceeding.

Interrogatory 3

For each person identified under Interrogatory 2, provide a list of all publications authored by the expert within the preceding 10 years, and a listing of any other cases in which the expert has testified as an expert at a trial or hearing, or by deposition within the preceding four years.

Interrogatory 4

Identify each document that Intervenor expect to submit, reference, cite, or otherwise rely upon in the written filing in this Subpart K proceeding on SLOMFP Contention TC-2.

Interrogatory 5

Identify and give a description of any specific relief, remedy, corrective actions, order, or other action (other than an evidentiary hearing) that Intervenor will request in connection with SLOMFP Contention TC-2 in this Subpart K proceeding and state the basis for such request.

Interrogatory 6

Identify and describe the "substantial indications that PG&E will not have normal recourse to the ratemaking system" (as referenced in SLOMFP Contention TC-2, page 14)³ and state any other basis for concluding that independent spent fuel storage installation ("ISFSI")

³ See "Supplemental Request for Hearing and Petition to Intervene by San Luis Obispo Mothers for Peace, Avila Valley Advisory Council, Peg Pinard, Cambria Legal Defense Fund, Central Coast Peace and Environmental Council, Environmental Center of San Luis Obispo, Nuclear Age Peace Foundation, San Luis Obispo Chapter of Grandmothers for Peace International, San Luis Obispo Cancer Action Now, Santa Margarita Area Residents Together, Santa Lucia Chapter of the Sierra Club, and Ventura County Chapter of the Surfrider Foundation," dated July 18, 2002.

costs to the present utility applicant PG&E will not be covered by revenues derived from electric rates.

Interrogatory 7

Explain the connection that the Intervenor perceive (as reflected in SLOMFP Contention TC-2, page 15) between the "enormous debts" being addressed in the bankruptcy case and PG&E's current and ongoing cost recovery in the rate base. This explanation should include a description as to how the ability to cover ISFSI costs will be affected by such "debts."

Interrogatory 8

Provide the basis (including citation to regulations) for the Intervenor's assertion that California regulations prevent recovery of Construction Work in Progress costs as related to the proposed Diablo Canyon ISFSI. See SLOMFP Contention TC-2, page 14.

Interrogatory 9

State the basis for Intervenor's argument that PG&E will require debt financing to cover ongoing expenses to develop, construct, operate and/or decommission the ISFSI.

Interrogatory 10

State the basis for Intervenor's argument that PG&E has or will have insufficient revenue or operating income to cover ongoing expenses associated with development, construction, operation and/or decommissioning of the ISFSI.

III. DOCUMENT PRODUCTION REQUESTS

Request 1

All documents that are identified, or referred to, in responding to all of the above interrogatories.

Request 2

All documents that Intervenor intend to use, exhibit, or otherwise rely upon in this Subpart K proceeding to support their position on SLOMFP Contention TC-2.

Request 3

All documents suggesting that PG&E will be unable to provide ongoing funding to design, construct, operate and/or decommission the ISFSI because it cannot recover costs as a rate-regulated utility.

Request 4

All documents suggesting that PG&E will be unable to provide ongoing funding to design, construct, operate and/or decommission the ISFSI based on PG&E's lack of access to credit markets.

Request 5

All documents that demonstrate a nexus between PG&E's current access to credit markets and its financial qualifications to develop, construct, operate and decommission the ISFSI.

Respectfully submitted,
