

December 19, 2002

Mr. Jonathan Galaviz
1930 Village Center Circle
#3-281
Las Vegas, NV 89134

Dear Mr. Galaviz:

Thank you for attending the U.S. Nuclear Regulatory Commission's (NRC's) September 17, 2002, On-Site Representatives' (OSRs) Open House. The staff and I appreciate the opportunity to have met with you to discuss the roles and responsibilities we have for regulating the safety of the proposed high-level radioactive waste repository at Yucca Mountain. I want you to know that we take our responsibilities very seriously.

You requested information on licensing standards. Enclosed is a copy of the *Federal Register* notice, dated November 2, 2001, which is the licensing criteria (10 CFR Part 63) for disposal of spent nuclear fuel and high-level radioactive wastes in the proposed geologic repository at Yucca Mountain, Nevada and a copy of the *Federal Register* notice, dated October 8, 2002, that announces that the NRC is amending its regulations (10 CFR Part 63) to define the term "unlikely" in quantitative terms. Also, enclosed is a copy of NUREG-1804, Revision 2, Yucca Mountain Review Plan, Draft Report for Comment. This plan will guide the NRC staff's safety review of a potential license application and will implement the NRC's regulations in 10 CFR Part 63 for reviewing key technical issues, as they related to repository safety.

We value your interest in our program and welcome your comments. Please feel free to contact any of our staff in Las Vegas if you have further questions or concerns. Bob Latta can be reached by phone on 702-794-5048 and via e-mail rml1@nrc.gov, Jack Parrott can be reached by phone on 702-794-5046 and via e-mail at jdp1@nrc.gov and Vivian Mehrhoff can be reached by phone on 702-794-5053 and via e-mail at vlm@nrc.gov.

I look forward to meeting with you again.

Sincerely,
/RA/
Janet R. Schlueter, Chief
