**Subject: Vermont Yankee Nuclear Power Station
License No. DPR-28 (Docket No. 50-271)
Technical Specification Proposed Change No. 256
Administrative Changes to Position Titles and Miscellaneous Changes –
Supplement No. 1**

In response to the January 13, 2003 telephone request from the US NRC Project Manager, Vermont Yankee is providing the attached information. This supplemental letter provides an additional change to the Table of Contents to restore the detailed listing of the subsections of Chapter 6.0 Administrative Controls.

Attachment 1 to this letter contains supporting information for the proposed changes. Attachment 2 provides the replacement marked-up version of page v of the current Technical Specification Table of Contents showing the change requested. Attachment 3 contains the retyped page of the Technical Specification Table of Contents. The remainder of Proposed Change No. 256, as submitted by letter dated December 10, 2002 is unchanged, except as specifically addressed herein. The additional information provided in this letter falls within the scope of the original application and has no impact on the determination of no significant hazards consideration.

If you have any questions concerning this transmittal, please contact Ronda Daflucas at (802) 258-4232.

Sincerely,

Michael A. Balduzzi
Vice President, Operations

DESCRIPTION OF CHANGES

Vermont Yankee Nuclear Power Station (VY) proposes to revise the current Technical Specifications (TS) Table of Contents, page v as described below.

Proposed Changes

Since the one page General Table of Contents is proposed to be deleted, page v will be renumbered to page iv.

Proposed Page iv, Table of Contents: Insert the detailed listing of Section 6.0 (i.e. Sections 6.1 through 6.7) from the deleted page of the Table of Contents. Adding this detailed listing will ensure that the revised TS Table of Contents is at a consistent level of detail as the current TS Table of Contents.
