January 24, 2003

Rad Measures, Inc.
ATTN: Dr. James E. Martin
Radiation Safety Officer
2604 Bedford Road
Ann Arbor, MI 48104

SUBJECT: INITIAL NRC FORM 241 FOR CALENDAR YEAR 2003

Dr. Martin:

This acknowledges receipt of your initial NRC Form 241 dated January 3, 2003, and the \$1400 application fee, submitted to the NRC Region IV office to report proposed activities in NRC jurisdiction under the authority of the general license pursuant to 10 CFR 150.20.

Your Agreement State license is recognized as valid for the proposed use of licensed material at the location listed on your NRC Form 241. Please be aware that working under reciprocity in NRC jurisdiction requires you to comply with NRC regulations, as described in 10 CFR 150.20.

You may work up to 180 days during a calendar year under reciprocity. If you desire to work greater than 180 days, then you may want to pursue an NRC Radioactive Materials License. It typically takes 90 days to issue an NRC Radioactive Materials License. If you want to use your address in Ann Arbor, Michigan, then you will have to submit the NRC license application to NRC Region III Office. However, if you desired to use your address in Louisiana, you would submit the NRC license application to the NRC Region IV Office. The following web address should provide you the license application under NUREG 1556, Volume 7, "Program-Specific Guidance about Academic, Research and Development and Other Licenses of Limited Scope," <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/>. I have also enclosed a copy of the specific NUREG.

The calendar year 2003 RTS Reference numbers for your proposed location of work is as follows. Please refer to this RTS Reference number in any future communications.

RTS Reference Number	Proposed Location of Work
244	331 Metty Drive, Ann Arbor MI 48103

You must submit an NRC Form 241 clarification report when you propose to add locations of work, add or delete dates of work, change work site contacts, use different radioactive materials, or elect to perform additional work activities within NRC jurisdiction, and subsequently provide those changes to this office. Please note, all notifications or clarifications of work activities or

changes to the information submitted on the initial NRC Form 241 must include as a minimum, the following information: licensee name, agreement state license number, location of work, dates of work, and the signature of the RSO or designee.

Information submitted on NRC Form 241 must be specific regarding the location and dates of use. The regulations require you to notify this office three days prior to each of the proposed generally licensed activities. However, given the nature of your licensed activities, the time requirement specified in 10 CFR 150.20(b)(1) for filing an NRC Form 241 clarification report and any subsequent notifications has been waived, provided that you:

- A. Inform this office by telephone or facsimile of work activities or changes to the information submitted on the initial NRC Form 241, and
- B. Receive oral or written authorization for the activities from this office, and
- C. Submit written confirmation and the check for the fee payment, if applicable, within 3 days after the notification.

Enclosed is an NRC signature copy of your NRC Form 241. We appreciate your cooperation. If you have questions concerning this letter or other aspects of working in NRC jurisdiction under reciprocity, please contact me at 817-276-6552.

Please use one of the following FAX numbers for submitting NRC Form 241 clarifications.

817-860-8263

817-860-8188

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter, its enclosure, and your response, if you provide one, will be made available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

/RA/

Rachel S. Browder, Health Physicist
Nuclear Materials Licensing Branch
