Mr. Michael M. Corletti  
AP600 & AP1000 Projects  
Westinghouse Electric Company  
P.O. Box 355  
Pittsburgh, PA 15230-0355

SUBJECT: AP1000 - REQUESTS FOR WITHHOLDING INFORMATION FROM PUBLIC DISCLOSURE (AW-02-1580, AW-03-1596, AND AW-03-1597)

Dear Mr. Corletti:

By your applications and affidavits dated November 22, 2002, and January 21 and January 22, 2003, executed by Mr. James W. Winters, you submitted (1) AP1000 Reactor Vessel and Internals Engineering Drawings, (2) Revision 1 to your response to AP1000 Request for Additional Information (RAI) 220.009, and (3) Revision 2 to WCAP-15833-P, "WCOBRA/TRAC AP1000 ADS-4/IRWST Phase Modeling," respectively. You requested that these documents be withheld from public disclosure pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Section 2.790. Nonproprietary copies of Revision 1 to your response to AP1000 RAI 220.009 and WCAP-15833 have been placed in the NRC public document room and added to the Agencywide Documents Access and Management Systems Public Electronic Reading Room.

The affidavits stated that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

- (1) the information reveals the distinguishing aspects of a process (or component, structure, tool, method, etc.) where prevention of its use by any of Westinghouse's competitors without a license from Westinghouse constitutes a competitive advantage over other companies, and/or
- (2) the information consists of supporting data, including test data, relative to a process (or component, structure, tool, method, etc.), the application of which data secures a competitive economic advantage, e.g., by optimization or improved marketability, and/or
- (3) use of the information by a competitor would reduce his expenditure of resources or improve his competitive position in the design, manufacture, shipment, installation, assurance of quality, or licensing a similar product.

We have reviewed your applications and the materials in accordance with the requirements of 10 CFR 2.790 and on the basis of your statements, have determined that the submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure. Therefore, the versions of the submitted information marked as proprietary will be withheld from public disclosure pursuant to 10 CFR 2.790(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You should also understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions regarding this matter, I may be reached at 301-415-3053 or [ljb@nrc.gov](mailto:ljb@nrc.gov).

Sincerely,

*/RA/*
