Bill:

See the attached e-mail. Per our telecon, I discussed the information with Claudia Seelig. We concur in the paper based on the 1 FTE for Pebble Bed being included in the resources (as shown in FY 2003 Budget) and the narrative which discusses other work for NMSS divisions, (which you indicated is already included in normal work activities) does not exceed 0.5FTE for the office.

Call me if you have questions.

Liz
