Subject: PBMR CONFIRMATION-WE KEEP FTE

UPDATE - Giitter confirmed the 1 FTE was for PBMR and other advanced rx work. I told Carol Abbot - so our 1 FTE should still be ours.

MV told me about Pebble Bed (Excelon announced a few days ago they are withdrawing from the project).

CFO is now asking what our 1 FTE for advanced rx work is for (e.g., is it exclusively PBMR - and if so we're bound to lose it). Giitter sent me some slide input for the RX arena briefing with covered PBMR work and some other work without explicit project titles - so I've got a call in to him on this question. Hopefully ours is not exclusive to PBMR - but I just am sending this from an FTE awareness point of view - plus to make sure you even heard about this major agency development. CFO also mentioned that \$10M we got for the adv rx work was not "fenced" (I was wondering).
