RE: Notice of Violation 01-39-30856-57
SCE&G/V. C. Summer Nuclear Station
NPDES Permit SC0030856
Fairfield County

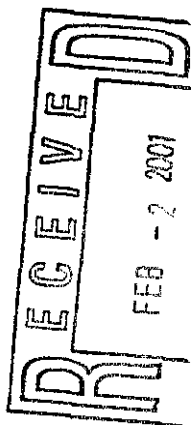

Dear Mr. Byrne:

A review of the discharge monitoring reports (DMRs) submitted to the Department for the December 2000 monitoring period has revealed the following violations:

PIPE	PARAMETER	DATE	LIMIT	DMR	MAX/MIN
06B	00556 Oil & Grease	12/31/2000	15	20	LCMOAV
06B	00556 Oil & Grease	12/31/2000	20	53	LCDAMX

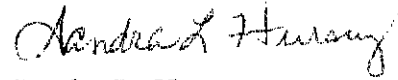

You are hereby notified that failure to comply with the effluent limits of the NPDES Permit is a violation of the Pollution Control Act, S.C. Code Ann. § 48-1-110(d) (1987) and Water Pollution Control Permits, 24 S.C. Code Ann. Regs. 61-9.122.41(a) (1998). The violations make SCE&G subject to further enforcement action, which may include assessment of civil penalties as set forth in the Pollution Control Act, S.C. Code Ann. § 48-1-330 (1987).

Since an explanation for the violations was submitted with the DMR, a written response to this notice is not required. The explanation will not, however, relieve SCE&G of responsibility for the violations cited.

If you have any questions concerning this notice, you may call me at (803) 898-4181. I will be glad to assist you.

Sincerely,

Sandra L. Hursey
