SUBJECT: TERMINATION OF NAC-UMS ADVANCED DESIGN FEATURES AMENDMENT  
APPLICATION REVIEW

Dear Mr. Thompson:

In your letter dated January 23, 2003, you requested that we suspend further activities on the NAC-UMS storage system application to incorporate advanced design features. We understand that you have made this request to focus your resources on another higher priority storage system application. However, in response to your request, I would like to clarify that we are terminating, rather than suspending, our review of the application and closing the billing account (TAC No. L23409) for this project. Also, please note that the review team may need to charge several hours over the next few days to file documents and close out the project.

If you have any comments or questions concerning this letter, please contact me at 301-415-8561.

Sincerely,

/s/ /RA/
