Mr. Moroney:

Subject: VIRGIL C. SUMMER NUCLEAR STATION
DOCKET NO. 50-395
OPERATING LICENSE NO. NPF-12
RESPONSE TO ISSUANCE OF LETTER ON STORAGE OF CLASSIFIED
INFORMATION (REVISION 2)

In response to the August 7, 2002 letter on the Storage of Classified Information, Virgil C. Summer Nuclear Station (VCSNS) submitted a response that we find requires a revision based upon further discussions with the NRC Resident Inspector.

In our response (RC-02-0155, dated September 9, 2002) VCSNS stated it would provide an NRC controlled area located inside the protected area for storage of classified information. It has come to our attention that the NRC would prefer that we place the requested two-drawer security container within the Secondary Alarm Station (SAS).

Therefore, VCSNS submits the following, which reflects the new agreement reached with the NRC for the storage of classified information:

- The NRC Resident Inspector's office is equipped with a combination safe,
- A cross-cut shredder will be purchased by the NRC, and
- A small two-drawer security container, purchased by the NRC, will be located inside SAS.

VCSNS personnel will not move this security container or attempt to gain access to it without permission from the NRC, and if the container is found unlocked and unattended, VCSNS will immediately notify the resident inspector or the NRC Headquarters Operations Officer and guard the contents of the container until NRC personnel are present.
