Re: Docket No. ~~99990001~~

040-08980

Dear Mr. Kinneman:

As per your request during the October 2nd meeting, I am attaching an enlarged copy of the tailings areas with a direct gamma survey performed on 200-foot centers. The copy also shows that the area requiring remediation was extended by about 200 feet towards the east in order to accomodate the higher readings encountered.

If you have any further questions, please do not hesitate to contact us.

A copy of this sketch was sent to Betsy Ullrich via fax on October 3, 1990.

Sincerely,

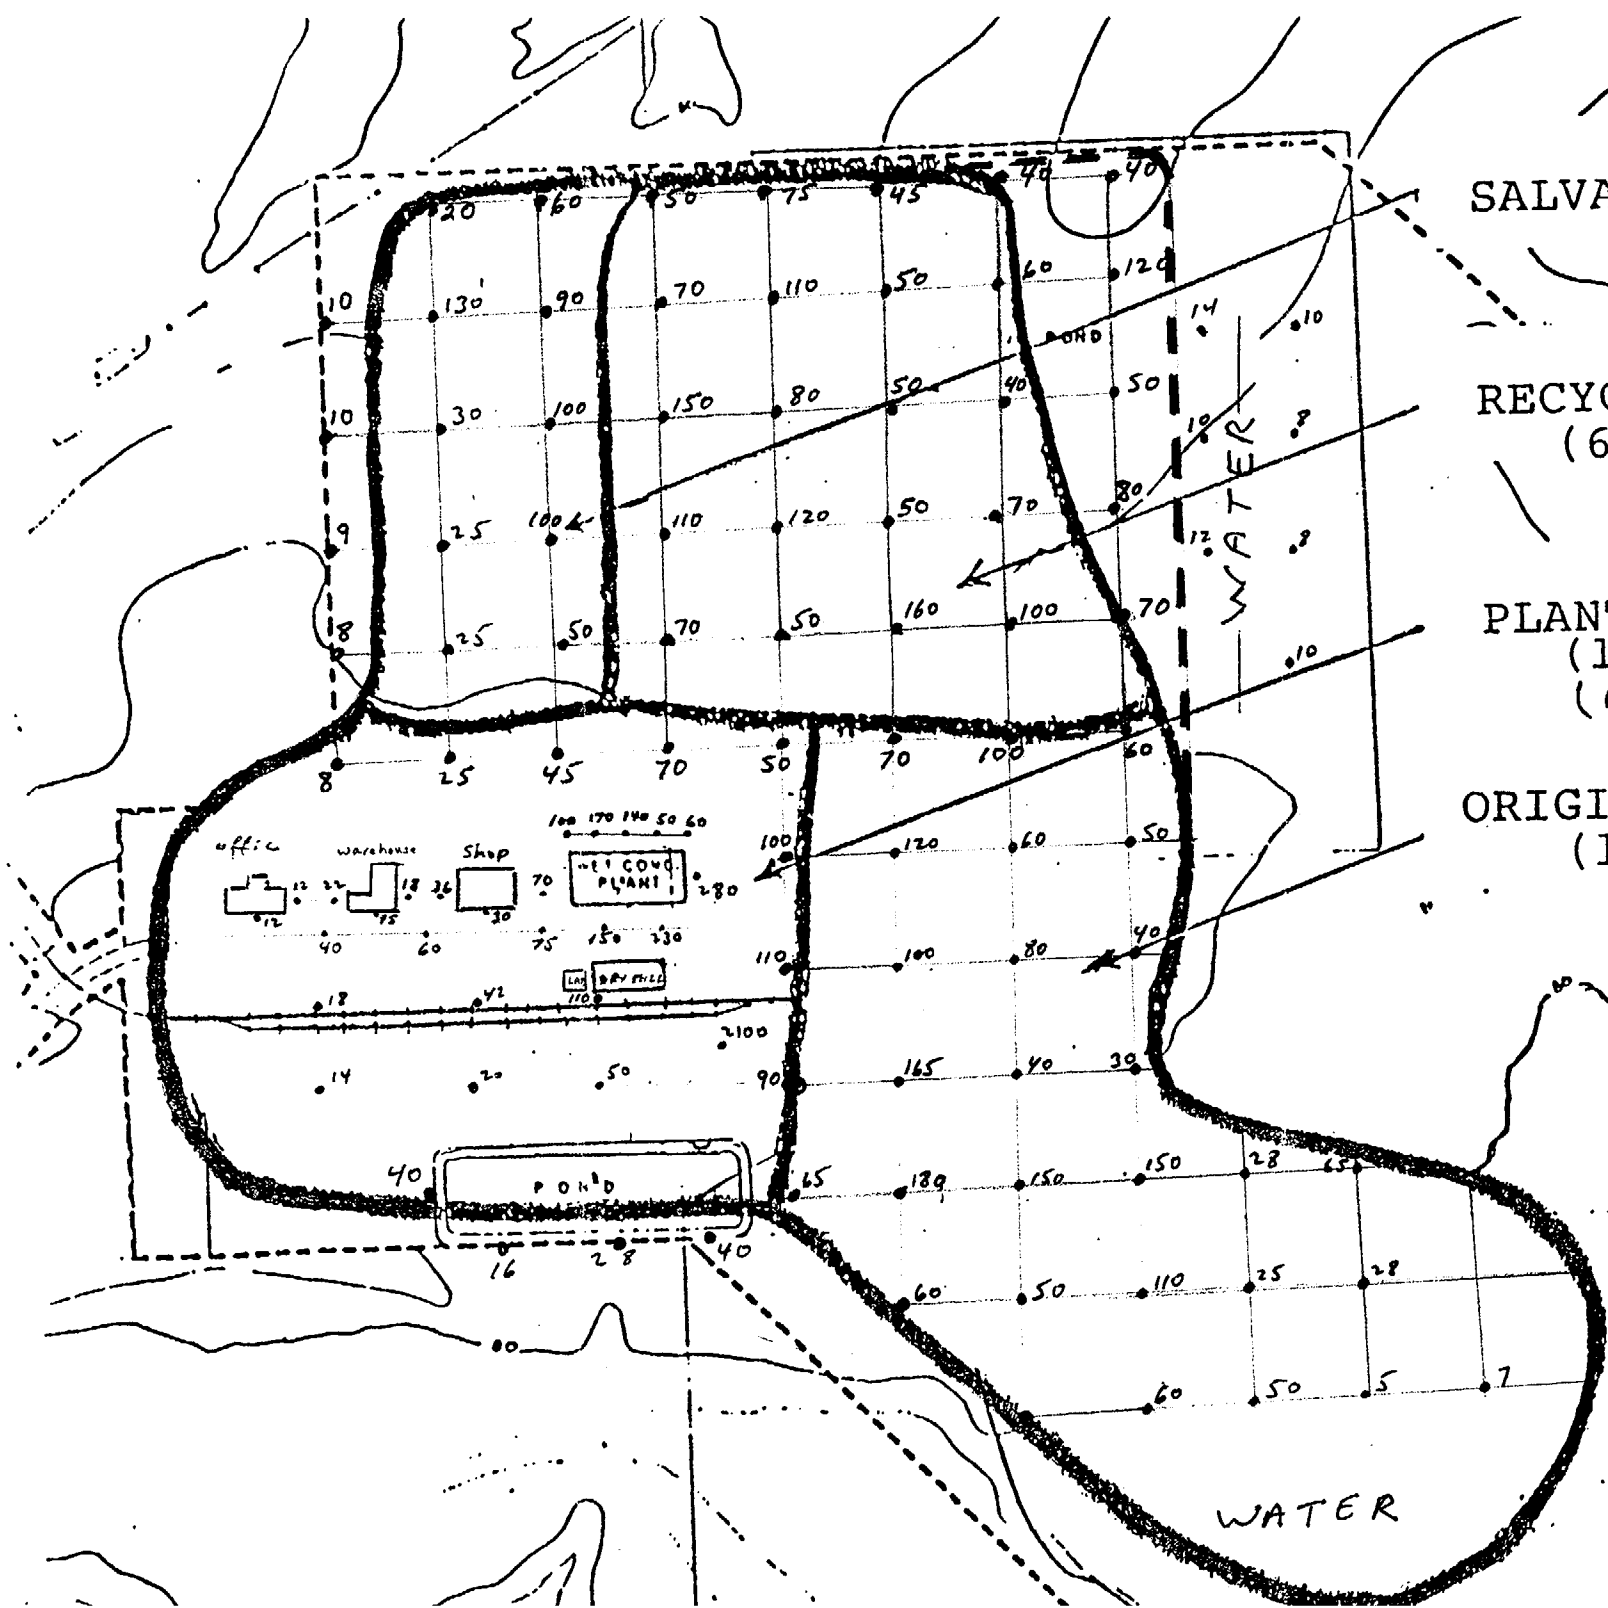

John F. Lord
Vice President/Manager
