☒ Not Applicable

SUBJECT: BRACHYTHERAPY SEEDS UNACCOUNTED FOR

DESCRIPTION: On January 29, 2003, a brachytherapy procedure using I-125 seeds was conducted at the licensee's hospital. On February 6, it was discovered that five seeds containing approximately 0.39 mCi (14.4 MBq) each could not be accounted for. A survey of the source storage area, source use area, linens, and waste was conducted and could not account for the missing sources.

The State and the licensee are investigating. The State has notified the FBI.

Region IV received initial notification of this occurrence from NRC's Operations Center on February 6, 2003. Region IV has informed the OEDO, NMSS, OSTP, IAT, and the Region's PAO and acting SLO.

This information has been discussed with the State and is current as of 11:30 a.m. on February 7.
