Mr. Donald A. Flater, Chief
Bureau of Radiological Health
Iowa Department of Public Health

Dear Mr. Flater:

As requested, we have reviewed the proposed changes to the Iowa regulations listed in the Iowa Public Health Department "Notice of Intended Action", and enclosed in your letter of December 26, 2002. The proposed changes to the Iowa regulations do not fully cover the requirements of any single CFR amendment. Each item listed in the Notice of Intent was reviewed against the equivalent NRC regulations in 10 CFR Parts 20, 30, 31, 32, 34, 35 and 39. In order to be credited for any CFR amendment listed on the State Regulation Status Data Sheet (SRS), the State should submit regulations for review that show all of the requirements for the particular amendment have been met. We discussed our review of the regulations with Charlene Craig on February 11, 2003.

As a result of our review, we have one comment and one editorial suggestion that have been identified in the enclosures. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that a State regulation meets the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final State regulation. However, we have determined that if your proposed regulations were adopted incorporating the comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200.

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in STP Procedure SA-201, *Review of State Regulations* (November 10, 1998), please highlight the final changes and send one copy to STP.

The SRS Data Sheet summarizes our knowledge of the status of other Iowa regulations. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the STP Web Site: <http://www.hsrdrn.gov/nrc/rulemaking.htm>.

If you have any questions regarding the comments, the compatibility and health categories, or any of the NRC regulations used in the review, please contact me, or John Zabko at (301) 415-2308 or JGZ@NRC.GOV.

Sincerely,

IRA BY P. LARKINS FOR

AGAINST COMPATIBILITY AND HEALTH AND SAFETY CATEGORIES**

State Section	NRC Regulation	RATS ID	Category	Subject and Comments
ITEM # 2 Rule 641-38.2 (136 C) Definitions	§20.1003	None	C	<p>Definitions: Person</p> <p>The State definition does not exclude federal agencies as per Suggested State Regulation (SSR) Part A.2 and 10 CFR 20.1003.</p> <p>The State should model its definition on the SSR Part A definition, which contains all of the requirements of 10 CFR 20, and avoids the editing problems of trying to modify the Part 20 definition to fit the State's needs.</p>

EDITORIAL SUGGESTIONS

1. In ITEM 56 subrule 41.2(14)(2) The State has omitted the word “breast” from the sentence describing breast feeding mothers.
