Committee on Energy and Commerce
United States House of Representatives

Dear Mr. Chairman:

The U.S. Nuclear Regulatory Commission (NRC) intends to publish a direct final rule in the Federal Register that will amend 10 CFR Part 20. The direct final rule entitled "Radiation Exposure Reports: Labeling Personal Information," amends 10 CFR Part 20 by revising the requirements for submitting 30-day reports for overexposures. The amendment will require licensees to clearly label any section of the report containing personal information "Privacy Act Information: Not for Public Disclosure." This change is being made to prevent the inadvertent release of privacy information contained in overexposure reports.

Sincerely,

/RA/
