Manager, Regulatory and  
Licensing Engineering  
Westinghouse Electric Company  
P.O. Box 355  
Pittsburgh, PA 15230-0355

SUBJECT: WESTINGHOUSE ELECTRIC COMPANY, REQUEST FOR WITHHOLDING  
INFORMATION FROM PUBLIC DISCLOSURE FOR INDIAN POINT NUCLEAR  
GENERATING UNIT NO. 2 (TAC NO. MB7274)

Dear Mr. Sepp:

By letter dated January 20, 2003, Entergy Nuclear Operations, Inc., (the licensee) requested that the U.S. Nuclear Regulatory Commission (NRC) review the small-break loss-of-coolant accident (LOCA) evaluation methodology for the Indian Point Nuclear Generating Unit No. 2. This methodology was described in Westinghouse Electric Company Report Westinghouse Report WCAP-14936, Revision 0, "Code Qualification Document for Best Estimate Small Break LOCA Analysis," dated August 2001. By letter dated January 24, 2003, you submitted an affidavit executed by you on January 24, 2002, requesting that WCAP-14936 be withheld from public disclosure pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Section 2.790.

We are reviewing your application and the material in accordance with the requirements of 10 CFR 2.790. At this time, we believe that a portion of WCAP-14936 contains information that could be considered to be proprietary. However, in order to complete our final determination, we will need a non-proprietary version of WCAP-14936. It is our understanding that the non-proprietary document would be submitted to the NRC via the licensee within 60 days.

If you have any questions regarding this matter, I may be reached at 301-415-1457.

Sincerely,

/RA/

Patrick D. Milano, Senior Project Manager, Section 1  
Project Directorate I  
Division of Licensing Project Management  
Office of Nuclear Reactor Regulation
