Reference: Letter from J. A. Benjamin (EGC) to USNRC, "Application for Renewed
Operating Licenses," dated January 3, 2003

Exelon Generation Company, LLC (EGC) hereby submits an Aging Management Review Aid, enclosed as Attachment 1, which is not considered part of the formal Application for Renewed Operating Licenses for Dresden and Quad Cities Nuclear Power Stations. This tool provides information for the NRC to identify which component groups listed in the referenced letter are associated with a particular system or structure. EGC is submitting the original and 24 copies of the Aging Management Review Aid. Also enclosed are 50 CD format copies of the Aging Management Review Aid.

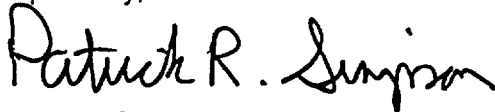

In the process of developing this tool for use, we identified that some changes were needed in some of the table links between LRA Chapters 2 and 3 of the referenced letter. Attachment 2 provides the corrections for the Chapter 2 line items.
