

Estimated burden per response to comply with this mandatory collection request: 15 minutes. This notification is required so that NRC may schedule inspection of the activities to ensure that they are conducted in accordance with requirements for protection of the public health and safety. Send comments regarding burden estimate to the Records Management Branch (T-6 E6), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by internet e-mail to infocollects@nrc.gov, and to the Desk Officer, Office of Information and Regulatory Affairs, NE08-10202 (3150-0013), Office of Management and Budget, Washington, DC 20503. If a means used to impose an information collection does not display a currently valid OMB control number, the NRC may not conduct or sponsor, and a person is not required to respond to, the information collection.

19. CERTIFICATION (MUST BE COMPLETED BY APPLICANT)

I, THE UNDERSIGNED, HEREBY CERTIFY THAT:

- All information in this report is true and complete.
- I have read and understand the provision of the general license 10 CFR 150.20 reprinted on the instructions of this form; and I understand that I am required to comply with these provisions as to all byproduct, source, or special nuclear material which I possess and use in non-Agreement States or offshore waters under the general license for which this report is filed with the U.S. Nuclear Regulatory Commission.
- I understand that activities, including storage, conducted in non-Agreement States under general license 10 CFR 150.20 are limited to a total of 180 days in calendar year. With the exception of work conducted in off-shore waters, which is authorized for an unlimited period of time in the calendar year.
- I understand that I may be inspected by NRC at the above listed work site locations and at the Licensee home office address for activities performed in non-Agreement States or offshore waters.
- I understand that conduct of any activities not described above, including conduct of activities on dates or locations different from those described above or without NRC authorization, may subject me to enforcement action, including civil or criminal penalties.

CERTIFYING OFFICER - RSO or Management Representative <i>(Name and Title)</i> DANIEL J. HAYES, SR. PRESIDENT	SIGNATURE 	DATE 02-12-2003
-----------------------------------------------------------------------------------------------------------------	---------------	--------------------

WARNING: False statements in this certificate may be subject to civil and/or criminal penalties. NRC regulations require that submissions to the NRC be complete and accurate in all material respects. 18 U.S.C. Section 1001 makes it a criminal offense to make a willfully false statement or representation to any department or agency of the United States as to any matter within its jurisdiction.

U.S. NUCLEAR REGULATORY COMMISSION

REPORT OF PROPOSED ACTIVITIES IN NON-AGREEMENT STATES, AREAS OF
EXCLUSIVE FEDERAL JURISDICTION, OR OFFSHORE WATERS

PLEASE READ THIS INFORMATION AND THESE INSTRUCTIONS BEFORE COMPLETING NRC FORM 241

Section 150.20 of 10 CFR 150 establishes a general license authorizing any person who holds a specific license from an "Agreement State" (a State with which the U.S. Nuclear Regulatory Commission has entered into an effective agreement under subsection 274b of the Atomic Energy Act of 1954) where the licensee maintains an office for directing the licensed activity and at which radiation safety records are normally maintained, to conduct the same activity in Non-Agreement States, areas of exclusive Federal jurisdiction, or in offshore waters if the specific license issued by the Agreement State does not limit the authorized activity to specified locations or installations.

INSTRUCTIONS

Licensees cannot perform work in areas of exclusive Federal jurisdiction without either (a) filing NRC Form 241 for reciprocity in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example: If the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where the licensee plans to work. If the jurisdictional status of the work site is unknown to the licensee, the Agreement State licensee should contact the Federal agency that controls the facility where the work is to be performed. A written statement concerning the jurisdictional status is not required in order to file for reciprocity; however, it is recommended that the Agreement State licensee obtain such a statement for the file for future reference and inspection purposes.

For licensees seeking to conduct activities under reciprocity for the first time in a calendar year, submit this Form, 4 copies of the Agreement State specific license and the fee specified in fee Category 16, 10 CFR 170.31. NRC must receive this filing at least 3 days before the licensee engages in activities permitted under the General License established by Section 150.20 of 10 CFR 150.

In general, the preferred method of filing is through the transmission by facsimile of NRC Form 241, the Agreement State license, and a copy of the check as this method avoids many timing problems which may be caused by use of the mail. If the facsimile method is used, the transmission must be received by NRC 3 days before the licensee engages in the activity and contains a copy of the check that will be mailed to meet fee requirements. In addition, for initial filings, the licensee must also file the four copies of NRC Form 241, four copies of the Agreement State license, and the check for the fee within 3 days of facsimile transmission. Alternatively, the licensee may file the required information through the mail or other means as long as NRC receives the information at least 3 days before the licensee engages in the activity.

In completing NRC Form 241, it is important that the information submitted on NRC Form 241 be specific regarding the location and date of use as well as the activity requested. If it is not possible to provide complete information, such as addresses for the locations of work, the licensee should provide as much information as possible. The licensee is responsible for providing additional information as revisions or clarifications as soon as such information becomes available.

Item 2.

For licensees seeking to conduct activities under reciprocity for the first time in a calendar year, submit this Form, 4 copies of the Agreement State specific license and the fee specified in fee Category 16, 10 CFR 170.31. NRC must receive this filing at least 3 days before the licensee engages in activities permitted under the General License established by Section 150.20 of 10 CFR 150. The licensee should check the "initial" box if this is the first submission of Form 241 for the year.

For revisions such as additional work locations, changes to the radioactive material, or work activities that are different from the information submitted on the initial NRC Form 241, licensees should file by NRC Form 241 or letter, with the appropriate fee so that NRC receives the filing at least 3 days prior to engaging in such activity. Licensees should check the "revision" box to indicate revisions to the initial NRC Form 241. It is not necessary to resubmit the Agreement State license unless the license has been amended since the filing of the initial NRC Form 241.

Providing the regional office with information that clarifies or deletes specific locations or work sites; changes work site contacts; or adds or deletes dates of work different from the initial NRC Form 241 is considered a clarification and not a revision. The licensee should check "clarification" to indicate that the changes are only clarifications to the information provided on the initial NRC Form 241. It is not necessary to resubmit the Agreement State license unless the license has been amended since the filing of the initial NRC Form 241. No fee is required for clarifications.

NRC Form 241 may be used for submitting multiple work locations and clients for initial filings of NRC Form 241, as well as for submitting revisions and clarifications to previous filings. Separate sheets may be used provided it includes all of the requested information in Items 9-16 of NRC Form 241.

Under the general license, reciprocity activities are authorized only as long as the licensee holds a valid radioactive material license. If the license expires during the year, an extension letter or a renewed license issued by the regulating agency must be submitted to NRC before performing any additional work under reciprocity.

Items 12. - 16.

Under the general license, reciprocity activities, including storage (usage), conducted in non-Agreement States and areas of exclusive Federal jurisdiction, are limited to a total of 180 days in any calendar year except for work conducted in off-shore waters, which is authorized for an unlimited period of time in a calendar year. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity under the general license which causes the total usage days to exceed 180 days, except for work conducted in off-shore waters. NRC may note and notify the licensee that a filing proposes reciprocity activities which approach or would exceed the 180-day limit. It is important that licensees track the days of use and clarify or delete dates of work when applicable.

14. SEALED SOURCES CONTAINING RADIOACTIVE MATERIAL SHALL NOT BE OPENED.
15. THE LICENSEE SHALL CONDUCT A QUARTERLY PHYSICAL INVENTORY TO ACCOUNT FOR ALL SEALED SOURCES RECEIVED AND POSSESSED UNDER THE LICENSE. THE RECORDS OF THE INVENTORIES SHALL BE MAINTAINED FOR FIVE (5) YEARS FROM THE DATE OF THE INVENTORY FOR INSPECTION BY THE CABINET, AND SHALL INCLUDE THE RADIONUCLIDES, QUANTITIES, MANUFACTURER'S NAME AND MODEL NUMBERS, LOCATION OF SEALED SOURCES, THE DATES OF THE INVENTORY, AND THE NAME OF THE INDIVIDUAL CONDUCTING THE INVENTORY.
16. NOTWITHSTANDING THE REQUIREMENTS OF 902 KAR 100:100, SECTION 1 (1), AND PURSUANT TO 902 KAR 100:015, SECTION 7(1), RADIOGRAPHIC EQUIPMENT AUTHORIZED FOR USE IN RADIOGRAPHIC OPERATIONS UNDER THIS LICENSE NEED NOT COMPLY WITH THE TORQUE CRITERIA OF SECTION 6.3.3.1. OF AMERICAN NATIONAL STANDARD INSTITUTE (ANSI) N43.9 - 1991.
17. THE LICENSEE IS AUTHORIZED TO RECEIVE, POSSESS, AND USE SEALED SOURCES OF IRIDIUM-192 OR COBALT-60 WHERE THE RADIOACTIVITY EXCEEDS THE MAXIMUM AMOUNT OF RADIOACTIVITY SPECIFIED IN ITEM 8 OF THIS LICENSE PROVIDED:
 - A. SUCH POSSESSION DOES NOT EXCEED THE QUANTITY PER SOURCE SPECIFIED IN ITEM 8 BY MORE THAN 20% FOR IRIDIUM-192 OR OR 10% FOR COBALT-60.
 - B. RECORDS OF THE LICENSEE SHOW THAT NO MORE THAN THE MAXIMUM AMOUNT OF RADIOACTIVITY PER SOURCE SPECIFIED IN ITEM 8 OF THE LICENSE WAS ORDERED FROM THE SUPPLIER OR TRANSFEROR OF THE RADIOACTIVE MATERIAL; AND
 - C. THE LEVELS OF RADIATION FOR RADIOGRAPHIC EXPOSURE DEVICES AND STORAGE CONTAINERS DO NOT EXCEED THOSE SPECIFIED IN IN 902 KAR 100:100, SECTION 3.
18. PURSUANT TO 902 KAR 100, THE LICENSEE IS AUTHORIZED TO RECEIVE TITLE TO, POSSESS, USE, AND TRANSFER UP TO 999 KILOGRAMS OF URANIUM CONTAINED AS SHIELDING MATERIAL IN THE RADIOGRAPHY EXPOSURE DEVICES AND SOURCE CHANGERS AUTHORIZED BY THIS LICENSE.
19. THE LICENSEE MAY TRANSPORT RADIOACTIVE MATERIAL, OR DELIVER RADIOACTIVE MATERIAL TO A CARRIER FOR TRANSPORT, IN ACCORDANCE WITH THE PROVISIONS OF 902 KAR 100:070, AND OTHER DEPARTMENTS OF THE COMMONWEALTH OF KENTUCKY HAVING JURISDICTION.
