This is the "letter" that we received. It was attached to the TR I submitted with the amendment package to NHPP HQ - I guess they just didn't tuck it in with the amendment info when they sent the package on to R4. Sorry for the inconvenience. Mike.

*Thanks Jim

Subject: Christian Meyer

Dear Matt,

This e-mail is to confirm that Dr. Christian Meyer completed his initial radiation worker training at the University of Rochester in 1995 and remained a radiation worker in good standing until his departure earlier this year. As such, Dr. Meyer was permitted to use radioactive materials without supervision.

Please feel free to contact me with any questions you may on this matter.

Sincerely,

P. Andrew Karam, Ph.D., CHP
Radiation Safety Officer
