SUBJECT: Generic Final Environmental Impact Statement for License Renewal of Nuclear Plants, Supplement 8 McGuire Nuclear Station, Units 1 & 2 CEQ No. 020534

RECEIVED
FEB 19 PM 4:07
Rules and Directives Branch

Dear Sir/Madam:

Pursuant to Section 102(2)(C) of the National Environmental Policy Act (NEPA) and Section 309 of the Clean Air Act, the U.S. Environmental Protection Agency (EPA) reviewed the document entitled, "Generic Environmental Impact Statement for License Renewal of Nuclear Plants Regarding the McGuire Nuclear Station, Units 1 & 2, Supplement 8, Final Report, NUREG-1437." The proposed federal action is the renewal of the Operating Licenses (OLs) for McGuire Nuclear Station, Units 1 & 2. We appreciate your compliance with the disclosure and public access aspects of the NEPA process. The purpose of this letter is to provide you with the results of our review of the Generic DEIS.

Rad waste, which is usually considered a "low volume waste stream," is any waste stream (i.e., ion exchange regenerate, etc.), that has a radioactive component. EPA Region 4's review of this Final GEIS found no issues related to nuclear or environmental radiation which were significant enough to comment on or ask for clarification. However, EPA does not regulate the radioactive component of any waste streams; that is the responsibility of the Nuclear Regulatory Commission (NRC). The NRC regulates the alpha, beta, and gamma radioactivity of all the waste streams at nuclear plants.

We appreciate your responses to our comments on the Draft GSEIS, which were included in the Appendices of the FGSEIS. Comments regarding emergency preparedness, anticipated power demands, groundwater use, and cultural resources were sufficiently responded to. Based on the sufficiency of information, alternatives evaluation, and potential environmental impacts over which EPA has authority, the document provides a reasonable analysis of the proposed action and alternatives. The EPA review has not identified any potential environmental impacts requiring substantive changes to the proposed action.
