February 12, 2003

Mr. Richard A. Meserve
Chairman
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Meserve:

As an integral component of the BNFL Nuclear Utilities Business Group, the Customer Relations & Sales (CR&S) organization plays a vital role in assessing and responding to the needs and expectations of our worldwide nuclear utility customers. The appointment I am announcing today in the CR&S organization will continue the strong leadership necessary to effectively serve customers.

Per Brunzell, senior vice president, Customer Relations & Sales indicated, a year ago, his intent to retire effective April 1, 2003. During the past three years, Per has provided important counsel and leadership as we have worked to effectively integrate the European operations of the former ABB nuclear businesses into Westinghouse Electric Company and more recently the consolidation of the Customer Relations & Sales activities.

I am pleased to announce the appointment of Jim Fici as senior vice president, Customer Relations & Sales for the BNFL Nuclear Utilities Business Group, replacing Per, effective April 1, 2003. Jim has developed strong customer relationships in the U.S., Europe and Asia as a result of his broad background in the Nuclear Fuel and Nuclear Plant Projects businesses which will serve him well in the important role of leading our worldwide customer organization. Jim will report to me, and will be relocating to Pittsburgh, Pennsylvania. He will also report on a matrix basis to Westinghouse president and CEO Steve Tritch and will work closely with the Westinghouse executive staff.

I look forward to working with Jim and the entire CR&S staff in strengthening our relationships with our nuclear utility customers and enhance our ability to support the goals and objectives of the global nuclear power industry.

Sincerely,

A handwritten signature in cursive script that reads "Charlie Pryor".
