

CP&L is the owner and holder of Facility Operating License No. NPF-63, issued by the NRC for the Shearon Harris Nuclear Power Plant, which is located in Wake and Chatham Counties, North Carolina. CP&L applied for a license amendment to support a modification to increase the Harris spent fuel storage capacity by adding rack modules to spent fuel pools 'C' and 'D' and placing these pools in service. The proceeding below pertains to this application and affects CP&L's ability to continue to generate electricity from its nuclear power plant fleet. Thus, CP&L has a substantial, direct and tangible interest in the ultimate resolution of this proceeding. It is submitted that CP&L is, therefore, entitled to intervene in this proceeding.

Counsel for CP&L has been authorized by counsel for Petitioner and counsel for Respondents to state that neither Petitioner nor Respondents oppose the granting of this motion.

Respectfully submitted,

David J. Cynamon
John H. O'Neill, Jr.
Douglas J. Rosinski
