

February 28, 2003

The Honorable Tom Edmunds
Mayor of Clinton
118 W. Washington
P. O. Box 378
Clinton, IL 61727

Dear Mr. Edmunds:

The purpose of this letter is to invite you, as a public official who may have an interest in activities related to the Clinton Nuclear Power Station, to a meeting with representatives from the U.S. Nuclear Regulatory Commission (NRC). The purpose of the meeting is to discuss the review process for Exelon Generation Company's (Exelon) early site permit (ESP) application for the Clinton site. Exelon is expected to file an ESP application with the NRC in June 2003 for a new reactor or reactors at the Clinton site. The meeting with public officials will precede a public meeting where the NRC will discuss the NRC ESP review process, as well as the opportunities for public involvement in that process for the Clinton site.

Under the NRC's regulations in Part 52 of Title 10 of the *Code of Federal Regulations* (10 CFR) Part 52, "Early Site Permits, Standard Design Certifications, and Combined Licenses for Nuclear Power Plants," the NRC can issue an ESP for approval of one or more sites for possible future construction of a nuclear power plant or plants. The issuance of an ESP is separate from the issuance of a license to construct or operate a nuclear power plant. The review of an ESP addresses site safety issues, environmental protection issues, and plans for coping with emergencies, independent of the review of a specific nuclear plant design.

The meeting with public officials will take place on March 20, 2003, from 2:00 p.m. to 4:00 p.m., at the Vespasian Warner Public Library, Revere Ware Room (downstairs), 310 N. Quincy Street, Clinton, Illinois. The meeting notice for the public meeting taking place at the same location the evening of March 20, 2003, is enclosed for your information. Please RSVP to Nanette Gilles of my staff by e-mail at nvg@nrc.gov or by telephone at 301-415-1180.

Sincerely,

/RA/

James E. Lyons, Director
New Reactor Licensing Project Office

MEMORANDUM TO: Marsha Gamberoni, Deputy Director
New Reactor Licensing Project Office
Office of Nuclear Reactor Regulation

FROM: Nanette V. Gilles, Senior Project Manager */RA/*
New Reactor Licensing Project Office
Office of Nuclear Reactor Regulation

SUBJECT: FORTHCOMING MEETING TO DISCUSS THE REVIEW PROCESS FOR
EXELON'S EARLY SITE PERMIT (ESP) APPLICATION FOR THE
CLINTON SITE (TAC NO. MB5354)

DATE & TIME: Thursday, March 20, 2003
Informal Orientation Session: 6:00 p.m.- 7:00 p.m.
Formal Meeting: 7:00 p.m. - 9:00 p.m.

LOCATION: Vespasian Warner Public Library
Revere Ware Room (downstairs)
310 N. Quincy Street
Clinton, Illinois 61727

CATEGORY 3:* This is a Category 3 Meeting. The public is invited to participate by
providing comments and asking questions throughout the meeting.

PARTICIPANTS: Participants from the NRC include members from the Office of Nuclear
Reactor Regulation (NRR) and the Office of the General Counsel (OGC).

NRC

F. Cameron, OGC
N. Gilles, NRR

J. Lyons, NRR
T. Kenyon, NRR

PURPOSE: To discuss the review process for Exelon's early site permit (ESP)
application for the Clinton Site. This meeting will provide information to the
public on the NRC ESP review process, as well as the opportunities for
public involvement in that process for the Clinton site. The formal meeting
session will be preceded by an informal orientation session beginning one
hour prior for those who wish to attend. The orientation session will provide
members of the public with an opportunity to talk informally "one-on-one"
with the NRC staff.

MEETING CONTACT: Nanette V. Gilles, NRR
301-415-1180, nvg@nrc.gov

**AGENDA FOR PUBLIC MEETING TO DISCUSS
EARLY SITE PERMIT (ESP) REVIEW FOR CLINTON SITE
ESP APPLICATION**

THURSDAY, MARCH 20, 2003

7:00 p.m. to 9:00 p.m.

7:00 p.m. - 7:10 p.m.	Welcome and Purpose of Meeting - F. Cameron
7:10 p.m. - 7:15 p.m.	Overview of the NRC - J. Lyons
7:15 p.m. - 7:20 p.m.	Overview of the Licensing Process (10 CFR Part 52) - J. Lyons
7:20 p.m. - 7:30 p.m.	Overview of Early Site Permit Review Process - N. Gilles/T. Kenyon
7:30 p.m. - 8:15 p.m.	Questions and Answer - F. Cameron
8:15 p.m. - 8:20 p.m.	Overview of Opportunities for Public Involvement - N. Gilles
8:20 p.m. - 8:50 p.m.	Questions and Answer - F. Cameron
8:50 p.m. - 9:00 p.m.	Closing - F. Cameron

*The NRC staff will host informal discussions one hour prior to the meeting session. No comments on the proposed Exelon early site permit application will be accepted during the informal discussions or the formal sessions. To be considered, comments must be provided either at the transcribed public meetings after the filing of the ESP application or in writing, as described during the subject information meeting (see agenda above).

U. S. NUCLEAR REGULATORY COMMISSION

Notice of Public Meeting

Pre-application Early Site Permit Meeting for the Clinton Site

AGENCY: U.S. Nuclear Regulatory Commission

ACTION: Notice of public meeting in Clinton, Illinois

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) will hold a facilitated meeting on March 20, 2003, to provide information to the public on the NRC Early Site Permit review process, as well as the opportunities for public involvement in that process for the Clinton site. Exelon Generation Company is expected to file an early site permit application in June 2003 for a new reactor or reactors at the Clinton site.

DATE/TIME: The meeting will be held on Thursday, March 20, 2002, from 7:00 p.m. through 9:00 p.m. The meeting will be preceded by an informal "orientation session" from 6:00 p.m. through 7:00 p.m. to allow for individual discussions with NRC staff members.

LOCATION: Vespasian Warner Public Library, 310 N. Quincy Street, Clinton, Illinois.

FOR FURTHER INFORMATION CONTACT: Francis X. Cameron, Special Council for Public Liaison, Office of General Council, U.S. Nuclear Regulatory Commission, Washington D.C. 20555-0001, or by telephone: (301) 415-1642 or e-mail: fxc@nrc.gov. Mr. Cameron will facilitate the meeting.

SUPPLEMENTARY INFORMATION: Additional information can be obtained from the website (<http://nrcweb.nrc.gov:300/reactors/new-licensing/license-reviews/esp.html>), or by contacting Ms. Nanette Gilles at (301) 415-1180, or via e-mail at nvg@nrc.gov.

Dated at Rockville, Maryland this 26th day of February 2003.

FOR THE NUCLEAR REGULATORY COMMISSION

/RA/

James E. Lyons, Director
New Reactor Licensing Project Office
Office of Nuclear Reactor Regulation

February 28, 2003

The Honorable Ken Schaub
Mayor of Weldon
355 North Street
Weldon, IL 61882

Dear Mr. Schaub:

The purpose of this letter is to invite you, as a public official who may have an interest in activities related to the Clinton Nuclear Power Station, to a meeting with representatives from the U.S. Nuclear Regulatory Commission (NRC). The purpose of the meeting is to discuss the review process for Exelon Generation Company's (Exelon) early site permit (ESP) application for the Clinton site. Exelon is expected to file an ESP application with the NRC in June 2003 for a new reactor or reactors at the Clinton site. The meeting with public officials will precede a public meeting where the NRC will discuss the NRC ESP review process, as well as the opportunities for public involvement in that process for the Clinton site.

Under the NRC's regulations in Part 52 of Title 10 of the *Code of Federal Regulations* (10 CFR) Part 52, "Early Site Permits, Standard Design Certifications, and Combined Licenses for Nuclear Power Plants," the NRC can issue an ESP for approval of one or more sites for possible future construction of a nuclear power plant or plants. The issuance of an ESP is separate from the issuance of a license to construct or operate a nuclear power plant. The review of an ESP addresses site safety issues, environmental protection issues, and plans for coping with emergencies, independent of the review of a specific nuclear plant design.

The meeting with public officials will take place on March 20, 2003, from 2:00 p.m. to 4:00 p.m., at the Vespasian Warner Public Library, Revere Ware Room (downstairs), 310 N. Quincy Street, Clinton, Illinois. The meeting notice for the public meeting taking place at the same location the evening of March 20, 2003, is enclosed for your information. Please RSVP to Nanette Gilles of my staff by e-mail at nvg@nrc.gov or by telephone at 301-415-1180.

Sincerely,

/RA/

Under the NRC's regulations in Part 52 of Title 10 of the *Code of Federal Regulations* (10 CFR) Part 52, "Early Site Permits, Standard Design Certifications, and Combined Licenses for Nuclear Power Plants," the NRC can issue an ESP for approval of one or more sites for possible future construction of a nuclear power plant or plants. The issuance of an ESP is separate from the issuance of a license to construct or operate a nuclear power plant. The review of an ESP addresses site safety issues, environmental protection issues, and plans for coping with emergencies, independent of the review of a specific nuclear plant design.

The meeting with public officials will take place on March 20, 2003, from 2:00 p.m. to 4:00 p.m., at the Vespasian Warner Public Library, Revere Ware Room (downstairs), 310 N. Quincy Street, Clinton, Illinois. The meeting notice for the public meeting taking place at the same location the evening of March 20, 2003, is enclosed for your information. Please RSVP to Nanette Gilles of my staff by e-mail at nvg@nrc.gov or by telephone at 301-415-1180.

Sincerely,

/RA/

James E. Lyons, Director
New Reactor Licensing Project Office
Office of Nuclear Reactor Regulation

Project No. 718

February 28, 2003

Mr. Robert H. Scheffer
Piatt County Board Chairman
101 W. Washington Street
Monticello, IL 61856

Dear Mr. Chairman:

The purpose of this letter is to invite you, as a public official who may have an interest in activities related to the Clinton Nuclear Power Station, to a meeting with representatives from the U.S. Nuclear Regulatory Commission (NRC). The purpose of the meeting is to discuss the review process for Exelon Generation Company's (Exelon) early site permit (ESP) application for the Clinton site. Exelon is expected to file an ESP application with the NRC in June 2003 for a new reactor or reactors at the Clinton site. The meeting with public officials will precede a public meeting where the NRC will discuss the NRC ESP review process, as well as the opportunities for public involvement in that process for the Clinton site.

Under the NRC's regulations in Part 52 of Title 10 of the *Code of Federal Regulations* (10 CFR) Part 52, "Early Site Permits, Standard Design Certifications, and Combined Licenses for Nuclear Power Plants," the NRC can issue an ESP for approval of one or more sites for possible future construction of a nuclear power plant or plants. The issuance of an ESP is separate from the issuance of a license to construct or operate a nuclear power plant. The review of an ESP addresses site safety issues, environmental protection issues, and plans for coping with emergencies, independent of the review of a specific nuclear plant design.

The meeting with public officials will take place on March 20, 2003, from 2:00 p.m. to 4:00 p.m., at the Vespasian Warner Public Library, Revere Ware Room (downstairs), 310 N. Quincy Street, Clinton, Illinois. The meeting notice for the public meeting taking place at the same location the evening of March 20, 2003, is enclosed for your information. Please RSVP to Nanette Gilles of my staff by e-mail at nvg@nrc.gov or by telephone at 301-415-1180.

Sincerely,

/RA/
