From: James L. Freels, PBNP Director of Engineering

Date: October 31, 2002

Subject: Suspended Qualifications

Copy To: L. Peterson      M. Rosseau      L. Williams      M. Reddemann  
          T. Vanderwarf    K. Hilliker

---

Until the root cause evaluation for the Auxiliary Feedwater Recirculation Flow Orifice plugging potential is resolved, your qualifications for the following have been suspended:

- To prepare modifications (C008.001 ESP),
- To prepare temporary modifications (C008.002 ESP)
- To prepare an Engineering Change Requests (C001.003 ESP)

This is different than what was communicated at the meeting in my office.
