Dear Mr. Potter:

We have reviewed the final Colorado regulations Part 18-*Licensing Requirements for Uranium and Thorium Processing*, which became effective on November 20, 2001. The regulations were received on February 12, 2003. The final regulations are in response to one amendment, identified in the enclosed State Regulation Status (SRS) Data Sheet. The regulations were reviewed by comparison to the equivalent U.S. Nuclear Regulatory Commission (NRC) regulations in 10 CFR Parts 20, 30, 40, 61 and 70. We also discussed our review of the regulations with you on February 13, 2003.

As a result of our review, we have no comments and one editorial suggestion. Please note that we have limited our review to regulations required for compatibility and/or health and safety. As a result of the NRC review, we have determined that the regulations, as adopted, meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200.

The SRS Data Sheet summarizes our knowledge of other Colorado regulations. Please let us know if you note any inaccuracies or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the STP Web Site: <http://www.hsrdo.ornl.gov/nrc/rulemaking.htm>.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me at (301) 415-2325, or John Zabko of my staff at (301) 415-2308 or e-mail: JGZ@NRC.GOV.

Sincerely,

/RA for J. PICCONE/
