Mr. Charles E. MacDonald, Chief
Division of Safeguards & Transportation, NMSS
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. MacDonald:

The Department of Energy (DOE) requests that the Nuclear Regulatory Commission (NRC) Certificate of Compliance No. 6400 for the Model 6400 be amended to include an additional payload consisting of Krypton-85 contents.

Enclosed for your review are 6 copies of an "Evaluation of Krypton 85 Contents for Transportation in the Model No. 6400 Packaging", WIN-236 Revision 1, dated March 1988 and associated drawings that addresses the Krypton-85 payload in the Model No. 6400.

The DOE Certification Office previously reviewed this package configuration and found it acceptable. The limited DOE Certificate of Compliance No. 9761 Revision 2, approval record and Safety Evaluation Report are enclosed.

Please call me (FTS 233-5394) or Erich Opperman (FTS 233-3954) of my staff if you have questions.

Sincerely,

Charles J. Mauck, Chief
Packaging Certification Staff
Office of Security Evaluations
