RE: Freedom of Information Request

Dear FOIA/Privacy Act Officer:

In accordance with the Freedom of Information Act and 10 C.F.R. 1004, I am requesting copies of all documents, including correspondence, memorandum, email, draft and final reports or studies, related to a Sandia National Laboratory study regarding the ability of dry storage casks for spent nuclear fuel to withstand an aircraft crash. This study was apparently commissioned by the U.S. Nuclear Regulatory Commission as referenced in Congressman Edward Markey's December 9, 2002 letter to Chairman Meserve.

I am also requesting all documents, including correspondence, memorandum, email, reports, or studies that relate to any other evaluation or study regarding the effect an aircraft crash into a dry storage cask for spent nuclear fuel or into an independent spent fuel storage installation (ISFSI).

I am willing to pay costs up to \$100. If costs will exceed \$100, please contact Connie Nakahara at 801-366-0523 prior to processing this request. In the event you determine certain documents are not obtainable under the Freedom of Information Act, please describe the document by title, author, recipient, and date. Also provide the justification for not releasing the document. Thank you for your assistance.

Best regards,

Dianne R. Nielson, Ph.D.
Executive Director
