TVA Exhibit 88

TVA Exhibit 88 contains more than 35 final retention registers that show September 30, 1996, as the effective date of termination of more than 75 Browns Ferry employees as part of the 1996 reorganization of TVAN. Each register reflects a separate competitive level. These retention registers were used to determine which employees should receive the RIF notices, which, generally, are those included in TVA Exhibit 90.
