Dear Mr. MacDonald:

Transmitted herewith are seven (7) copies of page 3a of the Safety Analysis Report (SAR), Reference 1. This page has been corrected to include the TN-9 under Item (B) pertaining to Admissable Contents. This omission was a inadvertent error on our part. As shown on page 1 of the SAR solid, non-fissile, irradiated hardware is listed for the TN-9. Also included are the revised title pages to reflect the latest revision of the SAR as Revision 13. This information therefore supplements that information transmitted by Reference 2.

If you have any questions, please contact me.

Very truly yours,

Donald J. Nolan
Chief Engineer
