Glenda/Diane:

The workshop on Exelon's legal and financial issues (see attached for more info) will be held on March 27 from 1:00 to 5:00. Are you available to participate? I'd like to set up a meeting with all participants to discuss the agenda.

Amy

Amy,

We would be pleased to support the workshop, however, our participation may not be necessary. I have asked the staff to respond to the specific schedule you proposed.

As you may recall, SECY-01-0207 indicated that, "The CFO plans to include, in the FY 2002 fee rulemaking, revisions to Part 171 that would specifically authorize annual fees to be charged to facilities licensed under Part 52; clarify that the NRC annual fee is charged per license, not per unit; and establish when NRC will begin to charge an annual fee to a holder of a Part 52 license." SECY-02-0020 advised the Commission of the proposed FY 2002 Fee Rule changes including the ones referenced in SECY-01-0207. The proposed rule will be issued for comment in March 2002. The final rule is scheduled for June 2002. Thus, there would be no need to include fees as an issue in your next paper.

Please contact Diane Dandois or Glenda Jackson if you have future questions concerning fees.

Pete

Peter,

Last year OCFO provided support to NRR on annual fee issues by providing input to SECY-01-0207, "Legal and Financial Issues Related to Exelon's Pebble Bed Modular Reactor."

SECY-01-0207 states that "The staff intends to engage Exelon and other stakeholders on the positions presented in this paper and receive their feedback. Stakeholder interactions will include a **workshop in early 2002**. Based on these pre-application interactions, the staff will amend its positions, as necessary, and make recommendations on policy issues related to the legal and financial issues for Commission approval. **The staff will provide policy recommendations in June 2002.**"

I am planning a public workshop next month (tentatively March 27) to satisfy the staff's commitment to obtain stakeholder feedback. I will also be coordinating a SECY paper to provide final recommendations to the Commission on these issues. I am requesting OCFO support for both of these activities. Please let me know if OCFO can support a public workshop on March 27.

Thank you,

Amy Cabbage, Project Manager
