Subject: Exelon Drop-in

Just got off the phone with Rod Krich. He apologizes for not giving us a heads up, but Exelon's government affairs people set it up while he was away. He says that the meetings are now canceled and that Mr. Kingsley may just call instead. I'll have Cheri type up the briefing package anyway, in case the meetings are rescheduled. Amy, thanks for putting it together.

The purpose of the visit was to discuss where Exelon is in their reassessment of the PBMR project. Rod said the timing of the decision and final outcome are not known yet, and that is the reason for the cancellation.

Jim
