Subject: Wording of text in 72.30

Allen Howe and John Nakoski discussed the wording of the text in 72.30 on 4/5/02 (p 75 of the draft FRN).

For 72.30(c) we don't see any need to change the wording of the existing 72.30(c) "Financial assurance for decommissioning must be provided by one or more of the following methods:"

to the new wording "Financial assurance is to be provided by the following methods " which might imply that all of these methods should be used

Also, in 72.30(c)(5) we think the text should add "to operate a power reactor" between "license" and "under Part 50".

we plan to formally respond to the concurrence memo by 4/10/02.

I will call Brian on Monday to discuss.

Thanks, Clark
