### **B.3 BACKGROUND**

The U.S. Nuclear Regulatory Commission's Technical Library currently subscribes to approximately 345 serial titles, both domestic and foreign. Most are scientific in nature, but general magazines and legal journals are required. Subscriptions to these serials are necessary to provide current information on subjects of interest to NRC staff in performing its duties. Because of the large number of titles involved, the services of a subscription agent are required.

### **B.4 BASIC RENEWAL SUBSCRIPTION ORDERING REQUIREMENTS AND MANDATORY REQUIREMENTS**

The contractor shall provide and /or meet the following mandatory requirements for this contract effort:

- a. all titles on its Subscription Order List (Attachment 2)
- b. subscriptions shall be offered to the Government at a price that is either discounted or does not exceed the current publisher's price.
- c. free or discounted access to the electronic journals, if available from the publisher, for renewal subscriptions
- d. have sufficient capital funding on hand to prepay subscriptions as necessary before the NRC makes its initial major payment to the contractor.
- e. place the renewal subscription orders by November 1 of each calendar year to prevent subscriptions from lapsing and to avoid gaps in the NRC's Library holdings.

### **B.5 NEW SUBSCRIPTION ORDERS**

The NRC may require the contractor to place new orders. All new orders, domestic or foreign, shall be filled promptly upon issuance of a modification to the contract by the Contracting Officer. In the case of domestic titles, the order request shall be placed within ten (10) calendar days of receipt by the contractor. In the case of foreign titles, the order request shall be placed within twenty (20) calendar days of receipt by the contractor. A written report on the status of all new orders shall be furnished to the NRC's Project Officer on a monthly basis. On occasion, the NRC may require that an order request be placed on a rush basis. In such cases, the NRC Project Officer or designee will notify the contractor by telephone or facsimile and request the contractor to advise the publisher of the order request and place the order within twenty-four (24) hours. The contractor shall inform the NRC Project Officer of the cost and estimated date of the first issue within five (5) days of the request from the Project Officer. The Contracting Officer will issue a contract modification for any additional subscriptions required under this effort.

The contractor shall provide to the Government, if available from the publisher, free access to the electronic journals, for new subscription orders.

## **B.6 BILL-TO AND SHIP-TO ADDRESS REQUIREMENTS**

The contractor shall order subscriptions in multiple copies and ship them to multiple addresses (Attachment 3), while maintaining one overall bill-to account. At the present time the NRC has nine (9) ship-to addresses, including its Regional Offices, each receiving a separate list of serial titles. One of these ship-to address lists contains the names and mail-stops of NRC Headquarters staff in Rockville, Maryland, to whom serial issues shall be sent direct from the publisher. The contractor shall ensure that the publishers are properly instructed to send issues to the Headquarters staff members attention at the common ship-to address. The contractor shall not treat each named staff member as a separate ship-to address.

## **B.7 CHANGE OF ADDRESS**

All claims shall be resolved either in the form of submission of a duplicate copy of the subscription or a credit to the NRC's account. The contractor's action on claims shall be completed within twenty (20) calendar days of the Project Officer's notification of the missing issue. The NRC will make an oral claim or utilize a standard form provided by the contractor upon mutual agreement of the parties. A written report on the status of the claims shall be provided to the Project Officer or designee on a monthly basis. The contractor shall not charge any additional service fee for claiming missing issues. When a publisher credits the contractor for any of the NRC's orders, the contractor shall immediately credit the NRC's account in the full amount and shall inform the Project Officer or designee with a credit memorandum with a copy to the Contracting Officer. When the NRC cancels a subscription, the contractor shall immediately credit the NRC's account with any refund furnished and shall inform the Project Officer or designee via a credit memorandum.

## **B.9 LIST OF TITLES**

The contractor shall generate lists of titles by computer, placing them in alphabetical order and showing number of copies, frequency, subscription period, and price. Separate lists are necessary for each ship-to address, and also a master list of all titles in one alphabet. In the case of bill-later items, an accurate estimated price shall be provided. The NRC may request a separate list of bill-later titles from time to time. All lists shall be in a black type on standard 8-1/2" X 11" white paper for ease of reproduction. Titles shall be in a consistent, generally accepted form based on

current serial cataloging practices. The lists shall be left-justified by title, with all related information, including Headquarters staff ship-to address, under a given title and indented to the right.

## B.10 FACILITIES, PERSONNEL, CATALOGUES

The contractor shall provide the facility, qualified personnel, and computer equipment necessary to generate the required serial title lists and monthly reports which shall be accurate, timely, and properly formatted. The contractor's annual published catalog shall serve as the basis for titles available from the contractor, but the contractor is expected to provide new or obscure titles required upon request by the NRC as a result of any bibliographic research. There shall be few, if any, new titles which the NRC orders that the contractor cannot ultimately provide. However, the contractor shall provide all of the mandatory serial titles reflected on the NRC's Renewal Lists. The contractor shall send its annual catalog to the NRC Project Officer no later than March 1 of each year of the contract. The contractor shall regularly inform the NRC Project Officer of title changes and titles that have ceased publication, as this information becomes available.

## B.11 SUBSCRIPTION RENEWALS

The contractor shall submit to the Project the Annual Renewal Lists for the next calendar year no later than August 1 of each contract year. Separate lists for each ship-to address shall be provided in four copies, containing prices of current publishers' list prices. (1) Constitutes an assignment of work outside the general scope of the contract.

Upon receiving the notification from the contractor, the contracting officer shall issue an appropriate contract modification or advise the contractor in writing that, in the contracting officer's opinion, the technical direction is within the scope of this article and does not constitute a change under the "Changes" clause.

(2) The Contractor shall make available at its offices at all reasonable times the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR Subpart 4.7, Contractor Records Retention, of the other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of type and regardless of form. This does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(e) Notwithstanding the requirements of the clauses in paragraphs (a), (b), (c) or (d) of this clause, the Contractor is not required to include any FAR clause, other than those listed below (and as may be required by an addenda to this paragraph to establish the reasonableness of prices under Part 15), in a subcontract for commercial items or commercial components--

(5) 52.222-41, Service Contract Act of 1965, As Amended (41 U.S.C. 351, et seq.).

### **C.3 52.216-18 ORDERING (OCT 1995)**

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from January 1, 2003 through December 31, 2003.

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the Schedule.

#### **C.4 52.216-19 ORDER LIMITATIONS (OCT 1995)**

(a) Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than \$47,500.00, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) Maximum order. The Contractor is not obligated to honor--

- (1) Any order for a single item in excess of \$-0-;
- (2) Any order for a combination of items in excess of \$182,512.33;

(3) A series of orders from the same ordering office within 5 working days that together call for quantities exceeding the limitation in subparagraph (b)(1) or (2) above.

(c) If this is a requirements contract (i.e., includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) above.

(d) Notwithstanding paragraphs (b) and (c) above, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within 5 days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

#### **C.5 52.216-22 INDEFINITE QUANTITY (OCT 1995)**

(a) This is an indefinite-quantity contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies and services specified in the Schedule are estimates only and are not purchased by this contract.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. The Contractor shall furnish to the Government, when and if ordered, the supplies or services specified in the Schedule up to and including the quantity designated in the Schedule as the "maximum." The Government shall order at least the quantity of supplies or services designated in the Schedule as the "minimum."

(c) Except for any limitations on quantities in the Order Limitations clause or in the Schedule, there is no limit on the number of orders that may be issued. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after September 30, 2003.

#### **C.6 52.217-9 OPTION TO EXTEND THE TERM OF THE CONTRACT (MAR 2000)**

(a) The Government may extend the term of this contract by written notice to the Contractor within sixty (60) days; provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least thirty (30) days before the contract expires. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed five (5) years.
