

NEVAMAR COMPANY, LLC

12/10/02

Wade Loo
Nuclear Regulatory Commission Region II
Sam Nunn Atlanta Federal Center
61 Forsyth Street, SW
Suite 23T85
Atlanta, GA 30303

Dear Mr. Loo,

Janice Kirby and I have spoken by phone this week concerning the renewal of our NRC Materials License (# 45-24922-01). I did inform Janice that Nevamar Company has formerly announced its plan to shut down all operations at this facility by the end of the year (12/31/02). We have entered a contract with RAM Services, Inc. located in Two Rivers, Wisconsin to remove and dispose of all 4 sources. The project is scheduled to be completed on January 10, 2003.

We do not wish to renew our materials license, and we would like to ask for an extension of our current license. The extension would only need to be 30-45 days. This should give us time in the event of unforeseen weather disruptions.

If you have any questions or need any additional information to complete this request, please feel free to contact me at your convenience. I look forward to hearing from you.

Sincerely,

Bryan Bannister
Environmental, Health, and Safety Manager
