ADM002

The purpose of this modification is to increase the delivery order ceiling by \$22,641.20 to add maintenance support to CLIN No. 22 and add incremental funding in the amount of \$24,100.00. Under CLIN No. 22, additional maintenance effort in the amount of 325 OAO staff hours is added to support other reactor program systems. The level of effort required to support the systems is greater than that originally estimated at placement of the order due to unanticipated operational maintenance activities which were performed in support of the CLIN. The ceiling of the CLIN will be increased by \$22,641.20 to provide the additional support. Accordingly, this order is hereby modified as follows:

Under Section F.8, Consideration and Obligation, the first paragraph is deleted and replaced with the following:

“The total estimated amount (ceiling) of this order is \$13,642,183.62.”

Under Section F.8, “Consideration and Obligation,” the first sentence of the second paragraph is deleted and replaced with the following:

“The amount presently obligated with respect to this order is \$7,678,786.38.”

A revised version of the Price Schedule pages 1-33, and SOW page 242 are contained in Attachment 1 to this modification and hereby replace the corresponding pages in the order.

Accounting information for Modification No. 14 follows:

Total Obligation - Modification No. 14							\$24,100.00

This modification obligates FY02 funds in the amount of \$24,100.00. The summary of obligations for this order is contained in Attachment 2 to this modification. The summary of obligations contains funds added through Modification No. 17, which was issued out of order, subsequent to Modification nos. 14 through 16, to ensure continuation of the effort under the order.

All other terms and conditions of this order remain unchanged.
