

U. S. NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: U. S. Nuclear Regulatory Commission (NRC)

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. Type of submission, new, revision, or extension: Extension
2. The title of the information collection: Application for License to Export Nuclear Equipment and Material
3. The form number if applicable: NRC Form 7

4. How often the collection is required: On occasion; for each separate request for a specific export license and for exports of incidental radioactive material using existing general licenses.
5. Who will be required or asked to report: Any person in the U.S. who wishes to export: (a) nuclear equipment and material subject to the requirements of a specific license, (b) radioactive waste subject to the requirements of a specific license, and (c) incidental radioactive material that is a contaminant of shipments of more than 100 kilograms of non-waste material using existing NRC general licenses.
6. An estimate of the number of annual responses: 70
7. The estimated number of annual respondents: 70
8. An estimate of the total number of hours needed annually to complete the requirement or request: 190.8 rounded to 191 hours
9. An indication of whether Section 3507(d), Pub. L. 104-13 applies: Not Applicable
10. Abstract: Any person in the U.S. wishing to export nuclear material and equipment requiring a specific authorization or radioactive waste requiring a specific authorization ordinarily should file an application for a license on NRC Form 7, except that certain submittals should be filed by letter. The application will be reviewed by the NRC and by the Executive Branch, and if applicable statutory, regulatory, and policy considerations

are satisfied, the NRC will issue a license authorizing the export.

A completed NRC Form 7 must also be filed by any person in the U.S. wishing to use existing NRC general licenses for the export of incidental radioactive material before the export takes place (if the total amount of the shipment containing the incidental radioactive material exceeds 100 kilograms). The form is reviewed by the NRC to ensure that the Agency is informed before the fact of these kinds of shipments and to allow NRC to inform other interested parties, as appropriate, including import control authorities in interested foreign countries.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. OMB clearance requests are available at the NRC worldwide web site:

<http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by (insert date 30 days after publication in the Federal Register). Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.
