**AMENDED PETITION
FOR REVIEW**

Riverkeeper, Inc. (hereinafter "Riverkeeper"), hereby petitions the Court for review of the final Order of Executive Director for Operations of the United States Nuclear Regulatory Commission ("NRC" or "Commission") in a 10 C.F.R. § 2.206 petition for action concerning Indian Point Nuclear Power Station, in which the NRC denied Riverkeeper's administrative petition requesting the immediate shutdown of Indian Point Units 2 & 3, entered on the 18th day of November, 2002, which pursuant to 10 C.F.R. § 2.206 (c) became final on the 13th of December, 2002, twenty-five days after issuance.

Riverkeeper seeks review and reversal of the Director's Decision number DD-02-06, Nuclear Regulatory Commission docket numbers 50-003, 50-247, and 50-286 on the grounds that it violates the Atomic Energy Act as amended and constitutes an abuse of the Commission's discretion and a complete abdication of its statutory duty under 42 U.S.C. § 2201(i) "to protect health and to minimize dangers to life or property." Pursuant to 28 U.S.C. § 2343, Riverkeeper seeks review in the Second Circuit Court of Appeals, where petitioner has its principal office.

A true copy of the final order of the Directors Decision, DD-02-06, is attached as Exhibit
