SUBJECT: Responses to Potential Open Items for the Review of the License Renewal Application for Fort Calhoun Station, Unit 1

The attachment to this letter provides the Omaha Public Power District (OPPD) responses to the Potential Open Items (POIs) identified in the Reference 2 letter. As discussed with W. F. Burton, this submittal includes as appendices revisions to various tables in the Fort Calhoun Station License Renewal Application that are associated with the responses to POIs and Requests for Additional Information. In addition, some table revisions correct miscellaneous errors identified by OPPD.

OPPD is also providing under separate cover letter (Reference 3) paper and electronic sets of revised license renewal boundary and additional drawings noted in the above responses. These drawings are not considered part of the LRA.

If you have any questions or require additional information, please contact T. C. Matthews at (402) 533-6938.

Commitments to the NRC are included in this letter. These commitments are summarized at the end of the attachment; some of them may duplicate or revise commitments previously included in the Fort Calhoun Station License Renewal Application.
