Mr. David A. Christian
Sr. Vice President and Chief Nuclear Officer
Virginia Electric and Power Company
Surry Power Station
5000 Dominion Boulevard
Glen Allen, VA 23060

SUBJECT: RESPONSE TO ORDER FOR INTERIM SAFEGUARDS AND SECURITY
COMPENSATORY MEASURES FOR SURRY POWER STATION

Dear Mr. Christian:

On October 16, 2002, the U.S. Nuclear Regulatory Commission (NRC) issued Orders to dry storage independent spent fuel storage installations (ISFSIs) for the implementation of interim safeguards and security compensatory measures (ICMs). As a dry storage ISFSI, one of these Orders was issued to the Surry Power Station. On November 1, 2002, Virginia Electric and Power Company (Dominion), the licensee for the Surry Power Station, submitted its written response to the Order.

In your November 1, 2002, response, you stated that Dominion had implemented all the required interim compensatory measures for the ISFSI or has provided a schedule by which necessary actions will be completed. Based on our review, the NRC staff finds that your response to the October 16, 2002, Order for the Surry Power Station is acceptable and responsive to the Order.

Please remember, pursuant to Section III.C.2, you are to report to the Commission, in accordance with 10 CFR 72.4, when you have achieved full compliance with the requirements described in Attachment 2 to the Order. The NRC will determine the effectiveness of your implementation of the ICMs through on-site inspections.

If you have any questions about this letter, please call me at 301-415-8500.

Sincerely,
/RA/ original signed by /s/
