**Subject:** Re TIA 2002-1 and Schedules

Doug,

No conflict. The process calls for preliminary results, interaction with the licensee on the basis of those results, and then production of final results. What the 0350 Panel will hear on Thursday is progress toward preliminary results

Steve

Steve -

Maybe you can clear things up

On the Work Request for the TIA, you proposed a SPSB completion date of 8/31/02 and based on that date, I've proposed a closeout date of 9/30/02. Does this conflict with your plans to address the 0350 panel next week with preliminary results?

*8/9/02*
