Subject: Invitation E-mail to Draft D-B SDP Review

Mike,

Here's my suggested words to paste into your e-mail invitation:

Before beginning the concurrence process for the SDP report for the Davis-Besse performance deficiency, we are performing a technical review of the draft analysis. Steve Long has distributed draft copies of the analysis to each of you. We requested either review of particular sections where he has used your inputs or, by some, a review of the overall approach and the logic used for quantification. Please provide your comments directly back to Steve as soon as you can.

In addition, I am requesting your participation in a meeting to provide an opportunity to discuss the draft and gauge the degree of technical consensus on the analysis and results. The meeting will be in Room O9-B6 at 1 pm on Tuesday, August 13th.

Thank you all for your assistance and cooperation.

Addresses should be:

Ralph Caruso; William Cullen; Gary Demoss; Stephen Dinsmore; Allen Hiser, Bhagwat Jain; Mark Kirk; Don Marksberry; Wallace Norris; Gareth Parry, wjshack@anl.gov

So, Mike, two cut-n-pastes should do it unless you want to noodle with the words.

Steve
